- A Home Horticulture training will be offered state-wide online via the Zoom webinar platform and asynchronous courses on BlackBoard. Classes will be 100% online and will be taught by WSU faculty and staff, and regional experts.
- Training is offered to all WA State residents who are 18 and over.
- Learn about soil health, growing fruits and vegetables, managing garden pests and diseases, sustainable practices, and much more!
- Join WSU faculty, staff, and regional experts online for this comprehensive 15-week class.
- For more information contact your local WSU Extension office.
